REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicant's certified translation of the foreign priority document has overcome the 35USC102(e) rejection under Mathieu (7008091). Further, the prior art when taken separately or combined fails to teach and/or show an exterior mirror for a vehicle having a lamp that has a reflector that reflects light toward a window with multiple light sources in which each light source emits light toward the reflector but are arranged in such a manner that light from the light sources do not illuminate the window directly as per claims 1, 8 and 14. Re claim 3, the prior art when taken separately or combined fails to teach and/or show an exterior mirror for a vehicle having a lamp that has a reflector that reflects light toward a window and a light source that emits light toward the reflector but is arranged in such a manner that light from the light source does not illuminate the window directly with a mirror housing that houses the mirror and the reflector is arranged on the back side of the mirror housing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays,
